TEAM WORK WILL DO THE JOB!

Team work has won victories from time immemorial—for families, towns, cities, states and nations. Team work is the highest form and most democratic example of cooperation. Without team work, America and Americans would never have achieved the greatness that is theirs. We are all aware of its power and appeal. It is no less needed now than in the past.

Team work among those who live, work and recreate in and near the woodlands, is vital. There never was a time when our woodlands as a whole were in such precarious condition as they are now.

Since the hurricane, nearly 900,000 acres of slash have been added to our already sizeable slash problem. If we are to avoid unnecessary trouble with fire in our woodland areas everyone must cooperate—we must have team work. The remedy is simple—

YOU and YOU and YOU and YOU
MUST secure the required permit from your local forest fire warden before burning.

MUST use necessary precautions while burning or smoking in or near woodlands.

MUST not throw lighted cigars, cigarettes and matches from vehicles moving along highways.

Otherwise YOU might well contribute to a costly and damaging fire. And don't forget that fire might destroy your own property!

REMEMBER — Only YOU and YOU and YOU can prevent fire.

TEAM WORK WILL DO THE JOB!

Number of local fires	2
Number of acres burned	2

ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board of Candia:

February 1, 1954

May I present my seventh annual report of the Moore school of Candia and at the same time take the opportunity to thank the members of the Board for their help and understanding in our attempt to solve the problems of the district.

Our teaching staff was increased by two teachers and our children have increased to 236. However, we still have one teacher who is handling nearly 50 pupils—Mr. Kibbee in Grades seven and eight. He is using the largest room in the building and there is hardly any room to place his desks. But there is no room for more teaching space unless we use the corridors. No teacher on the present staff will teach two classes in one room another year and this should be if the group runs above 30 pupils. We are using the teacher's room for our smallest class and after moving all children into the available rooms from the corridors, the administrator of the building has her office in the hall along with the teaching of instrumental music and various remedial classes.

The School District of Candia was fortunate indeed to be able, by applying the new state aid formula, to receive nearly \$20,000.00 in State Aid Money. Since this was almost twice the amount estimated due to the lack of figures, the taxpayers of the town benefited in the reduction of the tax expectancy. The State Aid for next year, according to data received from the State Department of Education, will be \$19,066.18 which is \$123.64 less than this year.

The budget for 1954-55 will be found to have increased in teachers' salaries and retirement. The tuition, which is usually increased, is held at the same figure. However, should the state average increase sharply, we have been informed that the Manchester tuition would also increase above the \$300 amount per pupil. The tuition at Raymond has been set at the same figure as last year, \$300 per pupil. One of the reasons for salary increases is the addition of another teacher to split grades seven and eight.

Again may your attention be focused on the housing space at the Moore school. 1954-55 promises to attract an increase

if what the school census shows can be used to foretell enrollments. This coming year should show the largest enrollments in the history of the school — close to 240 pupils — and this number in a building originally built to house 125 at the most.

Plans have been adopted and specifications are being drawn up to add, in an adjoining structure, three rooms and an auditorium. As soon as these specifications are ready, bids will be asked on them and without further delay the building could be nearly completed for occupancy by September 1954.

Suppose, however, that continued delay retards erection such as lack of funds, disagreements relative to building construction, soil and water conditions, failure to be able to get the necessary materials such as steel and hardware, the weather, and perhaps a few others, then space must be found to house at least two classes outside the present building when school opens in September. In some places under similar conditions school has been delayed in opening in the fall for a month or two to allow for the completion of housing facilities. This would mean, of course, an extension of the school year into July and even August. Such an arrangement would run into more trouble especially in regard to teachers who take this time to attend summer school, travel, or prepare for the work of the new year.

It is a serious problem, but I hope that the parents and friends of the school and education will weigh the situation carefully before placing in danger the possibility of abandoning the building project regardless of the present situation.

May I again thank the members of the School Board, parents, children and all persons who contributed to educational growth of the children of the town.

Respectfully submitted,

MURRAY H. WATSON,
Superintendent of Schools.
